COMPUTER SCIENCE ENGINEERING STUDENT

PROFIL

Second year Images and Multimedia Computer Science student at engineering school ENSEEIHT in Toulouse, I am looking for an internship for summer 2026 and I am open to further it through a 'contrat de professionnalisation' if possible for my last year at ENSEEIHT. I am extremely passionate about new technologies and the truly incredible things that are done today thanks to computers. With a strong passion for creativity and visual expression, I am eager to contribute to fields where technology meets artistry and tells a story.

WORK EXPERIENCE

Data Processing Internship

📍 IRIT, Toulouse

2024-2025
4 months

Retrieval of satellite images and calculation of vegetation index based on GPS coordinates, and assistance in the detection and identification of arthropods.

Python Software Developer Internship

📍 Vitesco Technologies, Toulouse

2024
2 months

Prototyping the processing of measurement files from electric battery test benches by creating a Python architecture that allows for processing, analyzing, and validating the proper execution of the tests.

Private Math Tutor

📍 Toulouse

2023-2024
1 year

Personalized math tutoring for middle school and high school students, focusing on improving their understanding and problem-solving skills.

English Lessons

📍 School Charlemagne, Rufisque, Senegal

2018/2019
1 month

Interventions with six primary school classes to introduce and teach some basic concepts of English. I learned to communicate effectively with a group of students while managing organization with the teachers and addressing material constraints.

EDUCATION

2027
3 years

Computer Science Engineer Diploma

📍 ENSEEIHT, Toulouse

2023
2 years

CPGE MP

📍 High School Janson de Sailly, Paris

2021

Baccalauréat Mention Très Bien

📍 High School Le Caousou, Toulouse

2021

American Dual Diploma

📍 Academica, Remote
