COMPUTER SCIENCE MULTIMEDIA ENGINEERING STUDENT

PROFILE

Second-year Computer Engineering student at ENSEEIHT (Toulouse), specializing in Images & Multimedia, passionate about developing tools and pipelines for animation studios.

Experience with Python scripting in Blender and Maya, with a strong interest in workflow automation and creating technical solutions for artists.

WORK EXPERIENCE

Data Processing Internship

📍 IRIT, Toulouse

2024–2025
4 months

Retrieval of satellite images and calculation of vegetation index based on GPS coordinates, and assistance in the detection and identification of arthropods. Helped train and cross validate recognition models.

Python Software Developer Internship

📍 Vitesco Technologies, Toulouse

2024
2 months

Prototyping the processing of measurement files from electric battery test benches by creating a Python architecture that allows for processing, analyzing, and validating the proper execution of the tests.

Private Math Tutor

📍 Toulouse

2023–2024
1 year

Personalized math tutoring for middle school and high school students, focusing on improving their understanding and problem-solving skills.

English Lessons

📍 School Charlemagne, Rufisque, Senegal

2018/2019
1 month

Interventions with six primary school classes to introduce and teach some basic concepts of English. I learned to communicate effectively with a group of students while managing organization with the teachers and addressing material constraints.

EDUCATION

2027
3 years

Computer Science Engineer Diploma

📍 ENSEEIHT, Toulouse

2023
2 years

CPGE MP

📍 High School Janson de Sailly, Paris

2021

Baccalauréat Mention Très Bien

📍 High School Le Caousou, Toulouse

2021

American Dual Diploma

📍 Academica, Remote
